COMPUTERS—NEW TOOLS FOR TEXTILE TECHNOLOGY

Plan now to attend the 8th Annual Conference of the American Association for Textile Technology to be held at the Americana Hotel, New York City, on February 7. John Bolton, Jr., is this year's general chairman and William Poisson is moderator. A full slate of outstanding authorities on what computers can do for the textile technologists has been lined up. Cost for a reservation is \$20 per person, which includes the luncheon.
